PROFESSIONAL SUMMARY

Software engineer experienced in full-stack web development using JavaScript, React, Next.js, Node.js, Express.js, and MongoDB. Background in REST API development, responsive interfaces, performance optimization, and AI API integration. Currently providing technical and programmatic support at ADRI under the Ayushman Bharat initiative.

TECHNICAL SKILLS

Languages	JavaScript, Python
Frontend	React.js, Next.js, Tailwind CSS
Backend & Databases	Node.js, Express.js, REST APIs, MongoDB, Redis
Cloud & Dev Tools	AWS, Firebase, Git, GitHub, Postman, CI/CD fundamentals
AI & Core Concepts	OpenAI API, Gemini API, Prompt Engineering, Algorithms, System Design, Data Processing
E-commerce	Shopify storefront development

PROFESSIONAL EXPERIENCE

Junior Project Officer | Asian Development Research Institute (ADRI) *Jun 2026 – Present*

- Provide technical and programmatic support to the ADRI team under the Ayushman Bharat initiative.
- Use Python and Next.js in support of project-related technical activities.

Full Stack Engineer | Homeasy Automation Pvt. Ltd. *Mar 2025 – May 2026*

- Developed and deployed MERN-stack web solutions, contributing to application architecture, data processing, and performance improvements.
- Built and refined REST API integrations and maintainable application components; improved application load time by approximately 30%.

Frontend Engineer Intern | Givni Info-Tech *Jan 2025 – Mar 2025*

- Built React.js interfaces and REST API integrations for CheckPlots, a property-tracking application.
- Developed frontend modules and collaborated with backend developers on testing and bug fixes.

Frontend Engineering Intern | CETPA Info-Tech *Jul 2024 – Aug 2024*

- Contributed to MERN-based development, API integration, and reusable frontend components.

Freelance Software Developer | Independent Projects *Ongoing*

- Build web solutions for independent projects, working across frontend development, backend APIs, database integration, and application functionality.
- Currently developing both a Shopify storefront and a separate full-stack application for FUYL.

SELECTED PROJECTS

FUYL.in | Shopify Storefront & Full-Stack Application | *Shopify, Next.js, Node.js, MongoDB, Redis*

- Developing and refining the FUYL Shopify storefront, focusing on responsive design, storefront functionality, and user experience.
- Building a separate full-stack FUYL application from scratch using Next.js, Node.js, MongoDB, and Redis; work spans frontend, backend, and data integration.

Jetour Backend System | Freelance | *Node.js, Express.js, MongoDB*

- Designed a multi-role backend for authentication, bookings, and real-time tracking with Socket.io and Google Maps; integrated Firebase Cloud Messaging and deployed on AWS.

OmniAI / AstraAI | AI Agent | *OpenAI API, Gemini API*

- Built an AI-powered agent supporting email automation, web data retrieval, image generation, and conversational workflows.

EV Wheels | E-commerce Application | *Next.js*

- Developed an e-commerce application with authentication, product and order APIs, responsive layouts, lazy loading, and image optimization.

EDUCATION

Master of Computer Applications (MCA) | Amity University, Patna *2023 – 2025*
